

Information about Working Groups and Topical Groups

Roles of WG Chairs and of Topical group leads

- This document outlines the **roles and responsibilities of working group chairs and topical group leads**
- This document outlines the **list of topical groups for 2024 - 2025**

Information about Working Groups and Topical Groups

Roles of WG Chairs and of Topical group leads

Onboarding

24/25 topical group leads

Galaxy & Quasar Clustering - Enrique Paillas and Seshadri Nadathur
 Lyman-alpha Forest - Eric Armengaud and Andrei Cuceu
 Clustering, Clusters & Cross-Correlation - Rossana Ruggeri and ...
 Transients and Low-redshift Cosmology - Julian Bautista and ...
 Cosmology Parameter Estimation - Willem Elbers and Cristhian ...
 Galaxy & Quasar Physics - Rita Tojeiro and Malgorzata (Gosia) Siudek
 DESI-II - Hee-Jong Seo & Christophe Yèche
 Milky Way Survey - Ting Li and Leandro Beraldo e Silva
 Old Stuff

Onboarding

All working group chairs and topical group leads must watch two onboarding presentations. These can be found here:

- [Onboarding 2024 Part I](#)
- [Onboarding 2024 Part II](#)

24/25 topical group leads

Some topical groups span multiple WGs. Check the [list of topical groups for 2024 - 2025](#) for details.

Galaxy & Quasar Clustering - Enrique Paillas and Seshadri Nadathur

- Galaxy & Quasar, Lya BAO and Cosmological Interpretation - Uendert Andrade, Cristhian Garcia-Quintero, Paul Martini
- Growth from 2- and 3-point statistics - Florian Beutler and Jiamin Hou
- Primordial non-gaussianity - Regina Demina and Edmond Chaussidon
- Halo Occupation Modeling - Shun Saito and Jeremy Tinker
- Alternative clustering methods - Carolina Cuesta-Lazaro and Gillian Beltz-Mohrmann

Lyman-alpha Forest - Eric Armengaud and Andrei Cuceu

- Lya Mocks - Francesco Sinigaglia and Andreu Font-Ribera
- Lya Software - Corentin Ravoux and Calum Gordon
- P1D - Naim Karacayli and Michael Walther

Clustering, Clusters & Cross-Correlation - Rossana Ruggeri and Boryana Hadzhiyska

- Galaxy lensing topical group - Agne Semenaite and Sven Heydenreich
- Photo-zs topical group - Biprateep Dey and Jamie Mc Cullough
- DESI-CMB cross-correlations- Anton Baleato Lizancos and Alex Krolewski

Transients and Low-redshift Cosmology - Julian Bautista and Antonella Palmese

- Growth of structures with peculiar velocities - Ryan Turner and Christoph Saulder
- Multimessenger astronomy - Ariel Amsellem

Cosmology Parameter Estimation - Willem Elbers and Cristhian Garcia-Quintero

- [Neutrinos and related topics - Hernan Noriega](#)
- Desilike - Kushal Lodha and Johannes Lange

Galaxy & Quasar Physics - Rita Tojeiro and Malgorzata (Gosia) Siudek

- Sample characterization - Becky Canning and John Moustakas
- Absorbers - Siwei Zou and Mat Pieri
- Quasars and AGN - Raga Pucha and Vicky Fawcett
- Extragalactic Dwarfs - Viraj Manwadkar

DESI-II - Hee-Jong Seo & Christophe Yèche

- DESI-II upgrades - Julien Guy
- $z < 1$ high density - Lado Samushia and Sam Brieden
- $z > 2$ - Anand Raichoor and Rongpu Zhou

Milky Way Survey - Ting Li and Leandro Beraldo e Silva

- Y3KP topical group - Monica Valluri and Alex Riley
- DESI-2 Milky Way - Connie Rockosi

Old Stuff

Previous Topical Group structure, prior to Sep 24, now out of date
